PERSONAL PROFILE

As a final year Computer Science undergraduate at the University of Colombo School of Computing, I am a quick and adaptive learner with a deep enthusiasm for software development, and web and mobile application development. I am eager to secure a Software Engineering or Web Development position, where I can apply my technical skills, gain hands-on experience, and contribute meaningfully to dynamic projects. Driven to excel in the IT industry, I am committed to leveraging my knowledge to drive results and to further develop my skills in a challenging, collaborative environment.

EXPERIENCE

WSO2 LLC, Sri Lanka | *Software Engineering Intern (Internal Apps)* Jan 2025 – Present

- Revamping the WSO2 mobile application, which is currently available as separate codebases for Android and iOS, into a single codebase of React Native.
- Authentication and deployment processes of the application with Asgardeo and Choreo.

EDUCATION

University of Colombo School of Computing (UCSC), Sri Lanka May 2022 – Present

- Bachelor of Science in Computer Science

Royal College, Colombo 07, Sri Lanka Jan 2012 – Oct 2020

- G.C.E A/Ls 2020 - 3As (Combined Mathematics, Chemistry, Physics)
- G.C.E O/Ls 2017 - 7As & 2Bs (Core subjects, Business Studies & Accounting, Sinhala Literature, Communication & Media Studies)

PROJECTS

Mass Email Sender | *Java* 2024

- An automated program to send personalized emails with attachments to a large number of receivers at once. The email body can be customized according to the provided list of receivers..

Maathru | *React, React Native, Spring Boot, PostgreSQL* 2024

- A comprehensive web and mobile application suite designed to modernize maternal and infant healthcare in Sri Lanka. The platform facilitates efficient management of expectant mothers' health details, enables notification management for maternal clinics, and supports tracking of symptoms, health records, and medications.

Sri Tel | *Spring Boot, KeyCloak, MySQL, MongoDB, Kafka* 2024

- A fully integrated web portal and mobile application suite designed to enhance customer experience by providing efficient account management, billing services, and real-time service activation and deactivation. The platform also features interactive chat support and personalized service options, ensuring streamlined access to telecom services.

JOM | *HTML, CSS, JavaScript, Java, XML, Kotlin, MySQL* 2023

- A web and dual mobile application solution designed to streamline and automate supply chain management, manufacturing, stock control, and sales processes for a local virgin coconut oil manufacturer.

Kiddie Ed | *React, Node.js, Express, MongoDB, Bootstrap* 2023

- A web-based learning application tailored for early preschoolers, designed to make education engaging and fun through interactive games. Key users include admins, teachers, preschoolers, and system administrators, allowing for easy assignment distribution, monitoring, and review of progress.

SKILLS AND INTERESTS

Languages: Java, Python, C/C++, Kotlin, SQL, JavaScript, PHP, HTML/CSS, XML

Frameworks & Libraries: React, Node.js, Material-UI, Spring Boot

Developer Tools: Git, Docker, VS Code, Visual Studio, IntelliJ J, Postman

Database: MySQL, PostgreSQL, MongoDB

Soft Skills: Fast Learning, Problem Solving, Team Player, Communication

Interests: Software Development, Full-stack Development, Mobile Application Development

ACHIEVEMENTS

NBQSA 2024 <i>National ICT Awards</i>	2024
• Merit Award in the Tertiary Student Project (Business) category for the project Coco Trade, a comprehensive platform developed to support local virgin coconut oil manufacturers.	
RealHack 5.0 <i>Competitive Programming and Development Hackathon</i>	2024
• Placed as the First Runner-Up.	
IEEEExtreme 17 <i>Global Competitive Programming Competition</i>	2023
• Ranked 664 globally and 50 locally.	
FreshHack <i>Competitive Programming Competition</i>	2023
• Secured a finalist position.	
OpenHack <i>Competitive Programming Competition</i>	2023
• Secured a finalist position.	
Brains & Bytes <i>Global CTF</i>	2023
• Ranked 101 globally.	
IEEEExtreme 16 <i>Global Competitive Programming Competition</i>	2022
• Ranked 847 globally and 60 locally.	
Codefest Hackathon <i>Problem Solving and Ideathon</i>	2022
• Secured a finalist position.	
Inter Faculty Championship	
• 2nd runners-up in Table Tennis at the Inter-faculty Championship 2024 of the University of Colombo. • 2nd runners-up in Table Tennis at the Inter-faculty Championship 2023 of the University of Colombo. • 2nd runners-up in Baseball at the Inter-faculty Championship 2023 of the University of Colombo.	

LEADERSHIP EXPERIENCE AND VOLUNTEERING

IntelliHack NextGen	2024
• Volunteered as the web team lead in the IntelliHack NextGen, a machine learning hackathon organized by the IEEE CS Chapter of UCSC.	
MADHack 2.0	2023
• Volunteered as a logistics team member in the MADHack, a mobile application development hackathon organized by the IEEE Student Branch of UCSC.
